Key Performance Measures

Management utilizes Adjusted Net Income and Adjusted EBITDA as performance measures. Adjusted Net Income is the key performance measure and reflects the current management of our businesses and provides us with the information necessary to assess operational performance as well as make resource and allocation decisions. Adjusted Net Income should not be considered as an alternative to net income attributable to shareholders as determined in accordance with Generally Accepted Accounting Principles (“GAAP”).

Adjusted Net Income is defined as net income attributable to shareholders, adjusted (a) to exclude the impact of provision for income taxes, equity-based compensation expense, acquisition and transaction expenses, losses on the modification or extinguishment of debt and capital lease obligations, changes in fair value of non-hedge derivative instruments, asset impairment charges, incentive allocations, and equity in earnings of unconsolidated entities; (b) to include the impact of cash income tax payments, our pro-rata share of the Adjusted Net Income from unconsolidated entities (collectively “Adjusted Net Income”), and (c) to exclude the impact of the non-controlling share of Adjusted Net Income. We evaluate investment performance for each reportable segment primarily based on Adjusted Net Income. We believe that net income attributable to shareholders as defined by GAAP is the most appropriate earnings measurement with which to reconcile Adjusted Net Income.

The following table presents our consolidated reconciliation of net income attributable to shareholders to Adjusted Net Income for the three and nine months ended September 30, 2015 and September 30, 2014:

	Three Months Ended September 30,		Nine Months Ended September 30,

Adjusted Net Income	\$ 1,858	\$ 5,107	\$ 10,350	\$ 16,232

(1) Pro-rata share of Adjusted Net Income from unconsolidated entities includes the Company’s proportionate share of the unconsolidated entities’ net income adjusted for asset impairment charges of \$10,508 for the three and nine months ended September 30, 2015. Pro-rata share of Adjusted Net Income from unconsolidated entities includes the Company’s proportionate share of the unconsolidated entities’ net income adjusted for loss on extinguishment of debt of \$62 for the three and nine months ended September 30, 2014.

(2) Non-controlling share of Adjusted Net Income is comprised of the following for the three months ended September 30, 2015 and 2014, respectively: (i) equity-based compensation of \$368 and \$114, (ii) provision for income tax of \$1 and \$119, and (iii) cash tax payments of \$1 and \$0. Non-controlling share of Adjusted Net Income is comprised of the following for the nine months ended September 30, 2015 and 2014, respectively: (i) equity-based compensation of \$1,099 and \$114, (ii) provision for income tax of \$21 and \$119, and (iii) cash tax payments of \$(70) and \$0.

In addition, we view Adjusted EBITDA as a secondary measurement to Adjusted Net Income, which serves as a useful supplement to investors, analysts and management to measure operating performance of deployed assets and to compare the Company’s operating results to the operating results of our peers and between periods on a consistent basis. Adjusted EBITDA may not be comparable to similarly titled measures of other companies because other entities may not calculate Adjusted EBITDA in the same manner.

Adjusted EBITDA is defined as net income attributable to shareholders, adjusted (a) to exclude the impact of provision for income taxes, equity-based compensation expense, acquisition and transaction expenses, losses on the modification or extinguishment of debt and capital lease obligations, changes in fair value of non-hedge derivative instruments, asset impairment charges, incentive allocations, depreciation and amortization expense, and interest expense; (b) to include the impact of principal collections on direct finance leases (collectively, “Adjusted EBITDA”) and our pro-rata share of Adjusted EBITDA from unconsolidated entities; and (c) to exclude the impact of equity in earnings of unconsolidated entities and the non-controlling share of Adjusted EBITDA.

The following table sets forth a reconciliation of net income attributable to shareholders to Adjusted EBITDA for the three and nine months ended September 30, 2015 and September 30, 2014:

- (3) Depreciation and amortization expense includes \$11,548 and \$4,118 of depreciation and amortization expense, \$1,405 and \$796 of lease intangible amortization, and \$62 and \$0 of amortization for lease incentives in the three months ended September 30, 2015 and 2014, respectively. Depreciation and amortization expense includes \$32,875 and \$8,741 of depreciation and amortization expense, \$5,198 and \$1,652 of lease intangible amortization, and \$182 and \$0 of amortization for lease incentives in the nine months ended September 30, 2015 and 2014, respectively.

Non-controlling share of Adjusted EBITDA is comprised of the following items for the nine months ended September 30, 2015 and 2014: (i) equity based compensation of \$1,099 and \$114, (ii) provision for income taxes of \$21 and \$119, (iii) interest expense of \$3,630 and \$277, and (iv) depreciation and amortization expense of \$4,291 and \$468, respectively.
- (5) The Company uses Funds Available for Distribution (“FAD”) in evaluating its ability to meet its stated dividend policy. FAD is not a financial measure in accordance with GAAP. The GAAP measure most directly comparable to FAD is net cash provided by operating activities. The Company believes FAD will be a useful metric for investors and analysts for similar purposes. The Company defines FAD as: net cash provided by (used in) operating activities plus principal collections on finance leases, proceeds from sale of assets, and return of capital distributions from unconsolidated entities, less required payments on debt obligations and capital distributions to non-controlling interest, and excluding changes in working capital.

The following table sets forth a reconciliation of net cash provided by operating activities to FAD for the nine months ended September 30, 2015 and 2014:

FAD is subject to a number of limitations and assumptions and there can be no assurance that the Company will generate FAD sufficient to meet its intended dividends. FAD has material limitations as a liquidity measure of the Company because such measure excludes items that are required elements of the Company's net cash provided by operating activities as described below. FAD should not be considered in isolation nor as a substitute for analysis of the Company's results of operations under GAAP and it is not the only metric that should be considered when evaluating the Company's ability to meet its stated dividend policy. Specifically: (i) FAD does not include equity capital raised, proceeds from any debt issuance or future equity offering, historical cash and cash equivalents and expected investments in the Company's operations; (ii) FAD does not give pro forma effect to prior acquisitions, certain of which cannot be quantified; (iii) While FAD reflects the cash inflows from sale of certain assets, FAD does not reflect the cash outflows to acquire assets as the Company relies on alternative sources of liquidity to fund such purchases; (iv) FAD does not reflect expenditures related to capital expenditures, acquisitions and other investments as the Company has multiple sources of liquidity and intends to fund these expenditures with future incurrences of indebtedness, additional capital contributions and/or future issuances of equity; (v) FAD does not reflect any maintenance capital expenditures necessary to maintain the same level of cash generation from our capital investments; (vi) FAD does not reflect changes in working capital balances as management believes that changes in working capital are primarily driven by short term timing differences which are not meaningful to the Company's distribution decisions; and (vii) Management has significant discretion to make distributions and the Company is not bound by any contractual provision that requires it to use cash for distributions. If such factors were included in FAD, there can be no assurance that the results would be consistent with the Company's presentation of FAD.
